PROFESSIONAL SUMMARY

Full-stack software developer and CEO & Founder of PrimoSoftware. I design and build practical digital solutions for businesses and organizations across Tanzania and Africa, including modern web applications, SaaS platforms, business management systems, APIs, databases, and WhatsApp AI chatbot solutions.

CORE COMPETENCIES

- WhatsApp AI Chatbot development (auto-reply, FAQs, bookings, sales, SW/EN, human handoff)
- Web application & SaaS development (multi-tenant, auth, RBAC, subscriptions)
- Business, HR, education and financial management systems
- REST API design, third-party integrations and database architecture
- Problem solving, system architecture, backend and frontend development

PROFESSIONAL EXPERIENCE

CEO & Founder / Software Developer

PrimoSoftware · Tanzania · Present

- Founded and lead PrimoSoftware, delivering professional and affordable ICT solutions.
- Built PrimoSoft Duka: POS, real-time stock, accounting and reports for shops and restaurants.
- Maintain product platforms used by businesses across Tanzania.
- Deliver WhatsApp AI chatbot solutions for FAQs, bookings, sales and 24/7 support.
- Architect SaaS and business systems that scale with clear, useful features.

Software Developer — Systems & Platforms

Independent / Client Projects · Education & Business Systems

- SRS multi-college academic records platform — <https://srs.ac.tz/>
- SRMS student portal for results, payments and receipts — <https://srms.ac.tz/>
